Maharaj Janardan Poharya Valvi Arts, Commerce and Shri Vishnu Krishna Kulkarni Science
College, Dhadgaon Dist. Nandurbar (M.S.)

Date: 28/3/2022

DEPARTMENT OF BOTANY

To,

The Principal
Maharaj Janardan Poharya Valvi Arts,
Commerce and Shri Vishnu Krishna
Kulkarni Science College, Dhadgaon.

Subject: Request to give permission to conduct Course on "Conservation of
Biodiversity of Traditional Seed from the Satpuda range".

Respected Sir,

With reference to the subject-cited above the Botany department of our
college has started "Conservation of Biodiversity and Traditional Seeds from the Satpuda
range" course for the academic year 2022-23.

So give permission to start the above said course.

Permission granted

DEPARTMENT OF BOTANY

Course Name -- "Conservation of Biodiversity and Traditional Seeds from the
Satpudaregion" Syllabus.

Aim and Objectives:

- To Conserve the Biodiversity of the local area and sustainable used of it's components.
- To ensure the equality sharing benefit from such used of resources.

Content-

Unit-1-Introduction- Meaning , Scope and Importance.

Unit- 2-Plant Diversity.Genetic Diversity, Species and Ecological diversity.

Unit- 3- Agrobiodiversity-Cultivated taxa and Wild Taxa, Value and uses of
Biodiversity.

Unit- 4-Traditionalseeds-Meaning, Nature and Types of Seeds

Unit-5-Loss of Traditional Seed- Meaning, Causes.

Unit- 6-Conservation-Methods of Preservation of Seed

Unit-7- Traditional Seeds and Human health.

Department of Botany

REPORT ON VALUE ADDED COURSE ON "CONSERVATION OF TRADITIONAL SEEDS FROM SATPUDA RANGE"

The department of Botany conducted a value added course in "**Conservation of Traditional Seeds from Satpuda range**" for the Science students. This course was designed and developed and conducted by Mr. Dr.H.M.Patil for the department of Botany. The basic objectives of this course to conserve biodiversity of the local area and sustainable use of its components. To ensure the equality sharing benefit from such use of resource.

Explain at an emerging level how introductory chemistry impacts the natural and technological environments. Use detailed data collection, analysis and collaborative skills in order to explore introductory chemical principles, critically evaluate models, draw conclusions and communicate results at an emerging level. Solve problems encountered in introductory chemistry using appropriate computational and reasoning skills demonstrating an emerging understanding of chemical principles and collaborative skills.

The course was conducted for Academic Year 2021-22 for the duration of 30 hours. Based on the attendance and satisfactory performance in all the activities conducted throughout the course, the certificates were distributed to the students who completed the course.
